

Water Analysis Laboratories in Saskatchewan

The Water Regulations, 2002 marked the introduction of new requirements for laboratory accreditation. All Laboratories which provide analysis of drinking water samples must be accredited to the Standards Council of Canada, National Standards System, General Requirements for the Competence of Testing and Calibration Laboratories, (ISO/IEC 17025-1999) CAN-P-4D, March 2002 (www.scc.ca) as of March 31, 2004. As of April 2, 2013 the following laboratories are known to be accredited for the purposes of testing of drinking water samples as required by *The Water Regulations, 2002*. Permittees are responsible to check ensure laboratories remain accredited at the time of sample submission.
